

Workshop

Statistical Parametric Mapping (SPM)

Location

Leipzig University
Department of Computer Science
Johannisgasse 26
Room 3-10

Time

17 – 19 April 2010, 9.30 am - 4 pm

Course Leaders

Emily Cross & Barbara Vogt

Statistical Parametric Mapping (SPM) is an academic software toolkit that has been designed for the analysis of brain imaging data sequences. This seminar will give an introduction to SPM8 and is intended for beginners with the aim to teach how to run own fMRI analyses at the MPI CBS.
